Hiring team

Present.ai

India

Dear hiring team:

I am a 3rd year bachelor at Amity University Gwalior, India studying computer science and applications, specializing in Artificial Intelligence and Machine Learning. I am writing to apply for the machine learning (Entry Level) position at present.ai Remote (India). I am very excited about the field of the industry and would welcome the opportunity to bring my strong machine learning and deep learning skills to your growing team.

Prezent.ai, an AI-powered platform, has achieved rapid growth and success by revolutionizing team productivity and enterprise communication through innovative presentations. I believe my specific range of expertise will greatly contribute to further enhancing the capabilities of your team. I have achieved certifications in Artificial Intelligence from Harvard & MIT and have completed Deep Learning and advanced TensorFlow Specializations from DeepLearning.AI.

In terms of hands-on experience, I have worked on several projects, including (but not limited to) Retrieval Augmented Generation System, Controllable image generation, and fine-tuning large language models. My skills include strong machine learning and deep learning techniques. Additionally, I am proficient in TensorFlow, Keras, Scikit-learn, Pandas, and Matplotlib.

I believe in continuous learning and currently enhancing expertise in Large Language Models (LLMs) Operations from Duke University and Generative Adversarial Networks (GANs) with DeepLearning.AI.

I am passionate about Machine Learning (ML) and Artificial Intelligence (AI) and am eager to leverage my knowledge and experience to contribute to present.ai. I am confident that my technical skills, combined with my dedication and enthusiasm, make me a strong candidate for this position.

Thank you for considering my application. I look forward to the opportunity to discuss how my background, skills, and certifications align with the goals of present.ai.

Sincerely,

Sujit Patel
